

- Prevents customer access to aisles during cleaning and restocking of shelves during unsafe periods.

- The System containing 2 Aisle Banners™ is stored in a convenient storage container for placement at the site of use. The Aisle Banner™ provides for the temporary closure of an aisle during business hours with one banner placed at each of the entrances to the aisle.

- The ultimate barrier to prevent injury to individuals who insist on walking anywhere in today's 24 hour retail environment.

- The Aisle Banner™ System is designed for use in retail stores, home centers, grocery stores, warehouse stores and food service operations.

- The Aisle Banner™ provides protection for aisles 7' to 12' in width.
